

**CLASS OBSERVATION FORM FOR PRACTICE-RELATED CLASSES
CONDUCTED BY DOCTORAL STUDENT**

academic year: 20../20..

First and last name of doctoral student:

.....

Student ID number:

.....

Year of study:

Information about the observed class

Date of observation:

.....

Semester: winter/summer

Course title:

Type (form of classes), major, specialization, year of study:

.....

Topic of the observed class:

Formal and substantive evaluation of the observed class

Evaluation aspect	YES	NO
Did the class start on time?		
Did the doctoral student identify the course objectives and the assumed learning outcomes?		
Was the content of the class in line with the objectives in the syllabus?		
Did the doctoral student manage the available class time appropriately (by properly organizing time for individual activities)?		
Was the doctoral student substantively prepared for the class?		
Did the doctoral student use correct academic language?		
Did the applied teaching methods make it possible to achieve the intended learning objectives?		
Did the doctoral student use methods that actively engaged the students?		
Did the doctoral student create a positive atmosphere during the class?		
Did the doctoral student monitor the students' progress (by checking their acquisition of knowledge and skills)?		

Comments regarding the course of the class expanding on the issues included in the table above:

.....
.....
.....

Conclusions/recommendations regarding the improvement of teaching skills:

.....
.....
.....

.....

date and signature of the observer

I have read the evaluation and comments after the observed class
