

Title of course: **Environmental Education for Urban Resilience**

Lecturer: dr Ewa Duda

Teaching language: English

Course description:

Urban dwellers make up more than half of the world's population. Urban sprawl poses ever new challenges. Changing demographic trends, widening social inequalities, environmental pollution, increasing demand for electricity, urban transport problems are just some of them. The course will focus on reading texts on urban education, practical workshop exercises and discussion on the role of education in solving the problems of cities of the future.

Attendance at weekly classes and active participation (practical workshop exercises and group discussions) are required to pass the course.
